

# Vitality

The BABTAC & CIBTAC magazine for therapists worldwide

July/August | 2013

## The age of youth

Can beauty be frozen in time?

## INSTANT TOP-UP TAN

Xen-Tan has added a new product to its retail collection. Flawless Logic is an instant bronzing formula, which clients can use to top up their tan between treatments.

The product, which glides on as a cream and sets to a shimmering powder finish has been created to give the skin an instant glow.

According to Xen-Tan, the product can be applied to any part of the body, including the face and décolletage, and can be blended to help cover up age spots and skin imperfections. [xen-tan.co.uk](http://xen-tan.co.uk)

## New serum enhances lash treatment

Nouveau Lashes has created a new eyelash serum to help enhance its popular LVL lash treatment.

The LVL Eyelash Conditioning Serum can be used either as a primer before mascara is applied, or the client can use the serum at home as part of their aftercare programme.

According to Nouveau, the serum coats and seals each lash, helping to lock in moisture and increase the longevity of the product applied during the LVL treatment.

## Hot stones for hands and feet

A new, compact hot stones carrier has been designed specifically for mobile therapists who offer manicure and pedicure treatments.

The Vulsini Mini is a lightweight bag that weighs less than 2kg. It can be charged from a mains plug socket or car lighter adaptor and heats up the stones in under 45 minutes.

The stones can also be used as part of facial treatments.

Vulsini's director, Jason Wong, said: 'We're excited to be launching the Vulsini Mini, which has been designed specifically for the nail care market, providing therapists with a product that helps them deliver a luxury manicure and pedicure treatment all from the comfort of their own stool.' ## Popular slimming programme expands

Therapists offering the Arosha Express slimming programme can now expand the services on offer, thanks to the launch of five new products.

The Arosha range now includes a new Micropsphere body scrub, which contains sweet almond oil and apricot to help smooth skin and remove dead skin cells.

There are also two new Pro Creams

– Firm Action, which helps tone the skin and reduce the appearance of stretch marks, and the cellulite-reducing Cell Cream.

Two other products, the Carnitine Cell Cream and Collagen Tone Up Cream, are designed specifically for clients to use at home following their treatment.
