SKINCARE ROUTINE

"In the morning I use Manuka Doctor ApiClear Foaming Cleanser (£17.99 for 150ml, manukadoctor.co.uk). It stops me getting any breakouts and balances the skin. It's a medicated brand that's designed to treat problem skin (I used to have quite bad acne when I was younger). In the evening, I use more hydrating, anti-ageing skincare, like Manuka Doctor ApiNourish Restoring Night Cream (£24.99 for 50ml)."

BODYCARE

"I use an exfoliating mitten everyday with a bodywash and also a Caudalie Body scrub (above, from £21.50 for 150g, caudalie.com)."

MAKE-UP

"In the daytime I go for a natural look, partly because I'm normally in a hurry. I like Chantecaille

Just Skin tinted moisturiser (£57 for 50g, liberty.co.uk). It goes on nicely and has an SPF. I also love Becca make-up, because it looks very natural, especially the Radiant Skin Creamy Concealer (£24.50 for 1.5ml, beccacosmetics.com). I also regularly use Nars Bronzing Powder (£26, narscosmetics.co.uk) and as a blusher I use Nars Multiple Stick (£30, narscosmetics.co.uk) which gives you a rosy glow like you've just been for a run. I wear my own lashes everyday (below left, Millie Mackintosh for Nouveau Lashes, £8.99, millie-mackintosh.com). I normally wear the 'Mayfair' ones. For evening make-up, I love a matte, orangey-red lipstick or maybe a berry or dark red, and my 'Soho' or 'Shoreditch' lashes are my fail-safe party look."

FRAGRANCE

"My favourite everyday perfume is the classic Chloé (above, £39.50 for 30ml EDP, boots.com). I also shop for perfume at the Jo Malone store (150 Sloane Street, SW1, jomalone.co.uk). I like the unusual combinations that they use."

HAIRCARE

"I use MoroccanOil Intense Hydrating Mask (below, £23.85 for 250ml, urbanretreat.co.uk), and Kérastase Ultime Huile Lavante Bain as a serum (£15.12 for 250ml, lookfantastic.com). I'm also loving Ojon Volume Advance Shampoo (£18.50 for 250ml, ojon.co.uk) and use an Ojon conditioner too. I'm not that good at styling my hair; I normally blow dry it straight and then use wide-barrelled tongs. I don't want it to look too set. If I have an event in the evening I'll tong it in the morning, then leave it alone to loosen up a bit."

TOP TIPS

"Never put perfume on your chest, as the alcohol ages your skin. Only put it on your pulse points. And try foundation on in natural light to be sure that it matches your skin colour."
